LAW HARRY, formerly a porter at the Hotel Brunswick, now a chair-car porter on the Washburn, running between Chicago and Moberly on the canon ball, met with violence out in the wilds of Missouri. He stepped a Missouri Democrat overboard, and then turned on him and gave him a sound good whipping. It took the entire crew to keep the Democrat and his tow friends out of the train. They wanted to hang Hanesy to the first telegraph pole. Hanesy has been transferred to the St. Louis and Chicago divisions. He runs through Missouri to continue his run through Missouri. He has a fine horse and a fine driver. He has a fine horse and a fine driver. He has a fine horse and a fine driver.

THE ROCKEY GOVERNOR.

Gov. McKinley Will Be in Decatur 45 Minutes.

This message was received from St. Louis this afternoon at the Republican office:
St. Louis, Oct. 25.—Hon. W. F. Calhoun: McKinley train will arrive at Decatur at 12:50 p. m., Oct. 26, and will leave at 12:50 sharp.

JOHN R. TANNER.
This is made better for Decatur than was expected. At first we were promised but 30 minutes stop. Now the stop will be 45 minutes, nearly an hour for the people to hear and cheer McKinley. He will occupy a platform where he can be seen and heard by thousands of people. Remember, Gov. McKinley and party will be in Decatur 45 minutes.

A committee of Republicans will go to Litchfield on the early train tomorrow morning and escort the party to Decatur on the special train.

MAY RESULT IN LOOK-A-W.

Serious Accident to Eli Ury in Mt. Zion.
A distressing mishap befel the venerable Eli Ury, leading citizen and extensive land owner in Mt. Zion township, at his home yesterday east of the town of Mt. Zion. The old gentleman was in the barn directing some work. He stepped backward and put his right foot down on a 20-penny nail, partly rusted, which had been driven through a loose plank. Mr. Ury is a very heavy man and he rested the full weight of his body on his right foot, driving the nail through the shoe and foot. The nail was drawn out and proper surgical attention given. Mr. Ury is now at the home of his son-in-law, Charles M. Fletcher, and is resting as comfortably as could be expected. It is too early yet to determine the outcome of the injury. It is of a very serious character and may result in look-a-w and death. Mr. Ury is past 70 years of age.

The Death Record.
Joseph Vandorf died at 12:30 this morning at Dalton City, of a complication of diseases aged 78 years. He was a veteran of the late war, and leaves a widow, his only relative in the country. The interment will be at Oak Ridge cemetery, Springfield, to-morrow.

Alexander T. Adams died of a complication of diseases at his home 628 East Condit street at 6:15 p. m. Oct. 24, aged 39 years, 11 months and 15 days. He leaves a widow and six children, two daughters and four sons, the eldest 10 years. Mr. Adams was the foreman of the foundry department at Talb's factory and was well liked by all of his associates. He was a native of New Jersey and was raised in Ohio, where his mother and sister reside. He had lived in Decatur five years. He was a member of Washington camp, No. 57, Patriotic Sons of America.

Married in a Hurry.
Samuel McCampbell of Marshall, Ind., and Sarah A. Mitchell of Christiana, Ill., aged respectively 80 and 72 years, were married yesterday at the Paris Hotel. They had been acquainted until last Saturday. A few days prior to that time Mr. McCampbell went to Christiana with a view to proposing marriage to Mrs. Mitchell, whom he had seen once or twice. Through timidity in making inquiries, however, he failed to find the lady and returned home. In the meanwhile an inkling of his visit and his purpose was conveyed to Mrs. Mitchell, who at once wrote to him saying that "Barbus was within." Mr. McCampbell is a retired farmer in comfortable circumstances.

Mike McDonald Backslides.
CHICAGO, Ill., Oct. 24.—Mike McDonald, the Democratic hater and gambler, whose alleged "conversion" to the Republican faith was heralded throughout the country a few days ago, has returned to his first love. He bobbed up at a meeting of the county Democratic marching club to-day, and with the meekness of a lamb said he had decided to return to the Democratic fold. As a proof of his sincerity he subscribed \$25 to the club's fund.

This will cause a revision of some Democratic editorials.

CALLED HOME.

Death of Mrs. Caroline Harrison at 1:40 A. M.

Sorrow in Decatur—The Postoffice Draped in Mourning.

Mrs. Caroline Scott Harrison, the beloved wife of President Harrison, died this morning at 1:40 o'clock at the White House in Washington after a long illness.

The news of her death was promptly announced in Decatur yesterday afternoon. A bulletin to the effect that she had passed away at 8 p. m. was posted at her home in Indianapolis, but at 7 p. m. came another bulletin stating that she was still alive, but could survive but a few hours.

The death of the lady to whom her husband has devoted months of personal care and watching, is received in Decatur with general expressions of regret and sorrow. The President's loss comes to every American home like a shadow of gloom and the thought of all are turned to the darkened home of the President, who feels the sad bereavement which sooner or later must come to every man.

The interest which the people take in the death is evidenced by the many innumerable made here and there, and also in the fact that the accounts of the last hours of Mrs. Harrison, as published in the papers, are closely read. On the telegraph page of the Republican to-day appears the official news from the White House.

This morning the front of the interior of the Decatur postoffice was heavily draped in mourning by direction of Postmaster Hubbard as a mark of respect to Mrs. Harrison.

THE FUNERAL ARRANGEMENTS.
The funeral arrangements have been determined upon as follows: Religious services will be held at the White House Wednesday morning, after which the remains will be taken to Indianapolis, where the interment will be at Crown Hill cemetery on Thursday.

Marvelous Industrial Progress.
New York Herald.—It is the statistics of manufactures given in the census bulletin so far issued are so approximately true they indicate an industrial progress between 1880 and 1890 which is at once marvelous and unparalleled in the history of the country. It may well arouse the wonder of every foreign nation.

Take textile industries for the entire United States. The value of products in 1890 was \$500,000,000; in 1880 it was nearly \$200,000,000. In the former year the capital invested was less than \$400,000,000; in the latter it exceeded \$700,000,000. In 1890 \$93,000,000 were paid in wages to 355,000 hands; in 1880 \$165,000,000 were paid to 489,000.

Taking the value of the products as a standard of comparison the increase was 112.75 per cent. in silk manufacture, 39.51 in cotton and 26.39 in wool. The average increase in the entire textile industry was 55.22 per cent.

These figures are striking. Not less remarkable are the figures for all industries in all the cities which have been reported. In New York the number of establishments increased from 11,000 in 1880 to 23,005 in 1890; capital invested, from \$181,000,000 to \$368,000,000; hands employed, from 227,000 to 388,000; wages paid, from \$97,000,000 to \$221,000,000; value of products, from \$472,000,000 to \$933,000,000.

The percentage of increase was 97.37 in capital invested, 127.89 in wages paid, and 55.20 in value of products.

FAIR TRADE.—Wild-cat state bank currency, and business promotion go hand in hand. Voting the Democratic ticket this fall means to set up these three conditions in this country.

A man trading about applying the moral law to trade between nations in such a way as to prevent the nation from protecting itself against the cheap labor of Europe, is like a wild-cat state bank note trying to make heads a gold dollar.

The American farmer may, in the opinion of Mr. Darrow, be the "dumbest" of all classes, but he has sense enough, Mr. Darrow and his people will find out, to know that:

"Produce the banner guards our land from the hands of the foreigner."
And when he votes the ticket will say:
"And when I play dress Britain's hand, Please take me for a blooming Jay."

There are some who will vote the Democratic ticket this fall believing that that party does not mean to ruin business by free trade and wild-cat money, just as many during the war, followed the fortunes of that party, who in the beginning never for one moment dreamed that the party leaders would ultimately land them in opposition to the government, and every measure to put down the rebellion. But they got there "just the same."

And still there is no free-trade square enough to tell us how opening our ports to foreign goods; that our laboring men are now making for this country. If by a free trade tariff we admit \$1,000,000,000 worth of goods that we are now making for ourselves it certainly means that somebody here will lose a job. What we want to know is how these idle men will be benefited and how those who retain their jobs will be able to do so at the present rate of wages?

Monter G. Ingersoll, puts the whole effect of a change from protection to free trade in a few words when he says: "If free trade could be adopted to-morrow, there would be an instant shrinkage of values in this country. Probably the immediate loss would equal \$200,000,000, that is to say one-third; the value of the country. No one can tell its extent. All things are interwoven that to destroy one industry cripples another, and the influence keeps on until it touches the circumference of human interests."

"Take the poor for the benefit of the rich, or the free trader in his wild paroxysms, and Ward McAllister, leader of the '200,' says: 'This McKinley bill, if it is not repealed by the clamor of our women will add more than one-third to the amount each lady who wears imported dresses must pay for them.'"

"If you apply to one of the best modistes she will frankly tell you, 'this [imported] dinner dress I must charge \$850 for; if I copy it for you, using the same materials of which it is made, it will cost you \$250.'"

WILLIAM M. BISHOP, a few days ago told his hearers that the Democratic party is not disposed to give the country wild-cat currency, and that the platform declaration favoring the removal of the 10 per cent. tax on state bank issues was merely to please a certain section of the country. If any one is deceived by Springer's statement he should read the following from the Atlanta (Ga.) Journal:

Mr. Atkinson covers the question in all its bearings, making the most complete and most convincing argument on it that we have seen. He considers it from a non-partisan standpoint, and, as he says, many of the ablest leaders in the country had declared in favor of the repeal of this tax before the Democratic National convention had considered it.

Mr. Atkinson's able letter ought to be read by every intelligent citizen. It absolutely dispels the objection that the repeal of the state bank tax would render us liable to the danger of wild-cat currency and prove, we think, that it is the easiest and safest way to supply the country with a currency which shall be at once elastic and safe, and which will secure the just demand now being made by so many of our fellow-citizens for increase in the circulating medium.

Who is to Blame?

The Review this morning has its periodical wall about know-nothingism in the shape of an appeal to national prejudice. We have frequently said we know nothing about the know-nothingism the Review speaks about, but we do know something about the Aligned attempt to organize a species of know-nothingism to elect himself governor of Illinois. We know that this scheme of Aligned's was backed by the second rate Democratic politicians of the state and spurred by the first rate of the Democratic party.

Mr. Aligned's scheme as he was nominated started to the front with an appeal to religious prejudice and from that day to the present has never ceased to discredit those American citizens, no matter whether they were born on American or foreign soil, who believe that this government and its constitution were not organized to foster a government of conflicting nationalities. If, as the Review states, there is unusual activity among those in both parties that are incited by organization, to react all attempts to turn this government into national chaos, the responsibility for that is upon Mr. Aligned, and the party Democratic politician who knows that every attempt to appeal specially to national prejudices or ethnic prejudices in politics will, in this country, as it has in every other country, breed opposition and ultimately to its ruin, yet knowing this, has too little patriotism to forego the chance they think they see to elevate some one to office.

There is one living who, as a public officer, would be worth enough to the people to compensate them for the disgraced and deplorable condition of things that would be sure to follow political divisions in this country on national and religious lines, and any man or set of men that for the sake of temporary power will do that which will breed such divisions is a political scoundrel and an enemy to good neighborhood and good government. As this sort of thing has been attempted by Aligned and the foolish would be leaders of the Democratic party, the vote has

the people who value the peace of society above the elevation of any man to office propose to bury Mr. Aligned beneath a majority that will be a lesson to those politicians no matter to what party they belong, who hereafter may be foolish enough to attempt the election of any man to office by an appeal to national and religious prejudices. We, as a people, cannot afford to prefer or reject any man on account of the accident of birth, and unless we can settle down to the fact that we are all equal as citizens, without reference to the place of birth or religious prejudices, sooner or later America will see re-enacted upon the soil dedicated to liberty the deplorable scenes which we have been led to believe could not recur under our present civilization.

The Death of Mrs. Harrison.

The death of Mrs. Harrison, wife of President Harrison, when taken in connection with the trials through which this nation is passing and in which the President is so prominent a factor, is an event that will touch every American heart that is capable of any emotion. Although it is true that the bereavement incident to the death of a good wife and a Christian mother is no more intense to a husband and his children who occupy high positions than it is in the case of those in the lower walks of life, yet the American people have a legitimate pride in the family of their chief executive officer and the sorrow that touches there has a response in every part of the land.

The people, knowing that Mrs. Harrison's affliction was of that nature that death must be its sequel sooner or later, have watched with tender sympathy the efforts of the President, in the midst of his official duties, to the people, to do all that could be done to alleviate her sufferings and make her last days as comfortable as possible. They saw him when the hope of recovery was large in his mind almost carrying her bodily from the carriage last May to the boat—Jasamine—for the trip down the Chesapeake bay to Fortress Monroe. They saw him after her return from that trip when he was bowed down with the conviction which was forced upon him that the disease was of that character that the chances of recovery were, remote. They saw him when he carried her to Look Lake in the hope that the revivifying influences of the pine-laden air might arrest the progress of the disease, and they saw him again when the last ray of hope had vanished as he followed the frail form, wasted by night sweats and racking cough, as it was carried upon a litter from the lake to the nearest railway station. They saw him in that sad procession as it slowly passed along the lonely country road beneath the pines that gave out their solemn moans so precisely attuned to the emotions welling up in his heart, which found relief in tears. It was a sad march. The wife who in her desire to recover had several times submitted to the surgeon's knife that the pressure of fluids upon her lungs might be relieved had at last come face to face with the great fact of death and had asked to be taken to her own room at the White House to die.

The President cancelled all his political appointments and devoted himself entirely to the bedside of the dying wife who had stood by him in poverty and prosperity; in sickness and health; in war and in peace; in obscurity and popularity; and when he was President of the United States. Day after day he sat there and awaited the messenger of death who came with slow but certain tread. He came at last with the same message to the White House that he brings to the people in his kindness characterized by the first lady of the land who died in the home of the people's chief executive, and we repeat, every heart capable of emotion beats in sympathy with the nation's chief in this sad hour of bereavement.

THE REVIEW this morning has its periodical wall about know-nothingism in the shape of an appeal to national prejudice. We have frequently said we know nothing about the know-nothingism the Review speaks about, but we do know something about the Aligned attempt to organize a species of know-nothingism to elect himself governor of Illinois. We know that this scheme of Aligned's was backed by the second rate Democratic politicians of the state and spurred by the first rate of the Democratic party.

Who is to Blame?

THE REVIEW this morning has its periodical wall about know-nothingism in the shape of an appeal to national prejudice. We have frequently said we know nothing about the know-nothingism the Review speaks about, but we do know something about the Aligned attempt to organize a species of know-nothingism to elect himself governor of Illinois. We know that this scheme of Aligned's was backed by the second rate Democratic politicians of the state and spurred by the first rate of the Democratic party.

Mr. Aligned's scheme as he was nominated started to the front with an appeal to religious prejudice and from that day to the present has never ceased to discredit those American citizens, no matter whether they were born on American or foreign soil, who believe that this government and its constitution were not organized to foster a government of conflicting nationalities. If, as the Review states, there is unusual activity among those in both parties that are incited by organization, to react all attempts to turn this government into national chaos, the responsibility for that is upon Mr. Aligned, and the party Democratic politician who knows that every attempt to appeal specially to national prejudices or ethnic prejudices in politics will, in this country, as it has in every other country, breed opposition and ultimately to its ruin, yet knowing this, has too little patriotism to forego the chance they think they see to elevate some one to office.

There is one living who, as a public officer, would be worth enough to the people to compensate them for the disgraced and deplorable condition of things that would be sure to follow political divisions in this country on national and religious lines, and any man or set of men that for the sake of temporary power will do that which will breed such divisions is
